

FARMER'S WIFE ALMOST A WRECK

Restored to Health by Lydia E. Pinkham's Vegetable Compound—Her Own Story.

Westwood, Md.—"I am a farmer's wife and do most of my own work when I am able. I had nervous spells, female weakness and terrible bearing down pains every month. I also suffered much with my right side. The pain started in my back and extended around my right side, and the doctor told me it was organic inflammation. I was sick every three weeks and had to stay in bed from two to four days.

"It is with great pleasure I tell you what Lydia E. Pinkham's Vegetable compound has done for me. I have followed your directions as near as possible, and feel much better than I have felt for years. When I wrote you before I was almost a wreck. You can publish this letter if you like. It may help to strengthen the faith of some poor suffering woman."—Mrs. JOHN F. RICHARDS, Westwood, Maryland.

Women who suffer from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

PINDELL LIKELY TO BE REJECTED

Belief That President Will Not Name Him for Ambassador, in View of Scandal.

Washington, Nov. 11.—President Wilson, in response to inquiries yesterday, gave it out that he had not had time to take up the diplomatic scandal involving Editor H. M. Pindell of Illinois. He did not indicate whether Pindell would be appointed ambassador to Russia, in view of recent developments. The general belief here is that the remarkable letter of Senator James Hamilton Lewis to Pindell, disclosing that it was proposed to give the editor a sinecure for a year—letting him draw the pay of ambassador at St. Petersburg while he had leisure to go about Europe, will head off the Pindell appointment. The president is understood to be greatly vexed at the disclosure, and it is not believed he will subject the administration to a galling fire of criticism in the Senate, with probable rejection of the name and refusal to confirm.

Sharp criticism of Senator Lewis is heard in many quarters, Republican and Democratic. The fact is not overlooked that the office of ambassador to Russia is not entitled at this time to be lightly considered, in view of the difficulty over the Jewish passport question and the feeling over the Bellis "ritual" trial at Kiev.

B. & M. SHOULD SELL Could Realize on Its Marketable Securities.

Boston, Nov. 11.—In opposing the Boston & Maine railroad's request for permission to increase its freight rates, the Boston Chamber of Commerce and seven affiliated commercial organizations suggest in a brief, prepared to be filed with the interstate commerce commission at Washington yesterday, that the road sell some of its unnecessary securities and take back the traffic it has diverted to the New York, New Haven & Hartford road, thereby overcoming a large part of its acknowledged financial deficiency.

VALUE OF RHEUMA FROM THE COURT

Judge Barhorst Was Relieved of Rheumatism After Doctors Failed.

If you have tried many other remedies and doctors' treatments for rheumatism and found they failed, do not be skeptical about trying RHEUMA. Read the testimony of Judge John Barhorst of Fort Laramie, O.: "After treatment by three doctors without result, I have been cured of a very bad case of rheumatism by using two bottles of RHEUMA. It is now two years since I used the remedy, and I am still as well as ever. Previously, I was a cripple, walking with crutches."

Such testimony should be convincing. 50 cents of the Red Cross Pharmacy, guaranteed.—Adv.

Wherever there is Pain apply an **Alcock's PLASTER**
The World's Greatest External Remedy.

Women Who Take this universally popular home remedy—at times, when there is need—are spared many hours of unnecessary suffering—

BEECHAM'S PILLS
Sold everywhere. In boxes, 10c, 25c.

FERDINAND AN EXILE

May Never Return to Bulgaria, It Is Believed

THE RETURN IS CONDITIONAL

Threatened With Death by Sofia Letters

London, Nov. 11.—Despatches from Vienna indicate that the disastrous second war into which Bulgaria entered after the quarrel with her erstwhile allies in the Balkan league is likely to cost King Ferdinand his throne.

King Ferdinand, who is now at Vienna, is determined not to return to Bulgaria unless he has the support of Austria. He has been most unpopular in Bulgaria since the termination of the war and it is said that he has received many letters threatening him with death, while placards with the words "To Let" have been posted on the walls of the national palace at night. The monarch frequently absented himself from Sofia, spending days at a time at Ebnethal.

He has had several conferences with Count von Berchtold, the Austrian premier, and has had an audience with Emperor Francis Joseph. It is said that if his mission fails he will abdicate in favor of his son, Prince Boris, who, having been brought up in the orthodox faith, is more popular than his father.

MONTANA PRODUCES \$70,000,000 IN METALS

Ranks Seventh Among the States in the Value of Mineral Products, and Second in Copper.

Montana ranks seventh among the states in the total value of its mineral products and second in the production of copper, for which Arizona stands first. The production of copper in both states, according to E. W. Parker, of the United States Geological Survey, increased notably in 1912, in Montana from 272,847,705 pounds, valued at \$34,108,963, in 1911, to 309,738,873 pounds, valued at \$51,106,914, in 1912; and in Arizona from 306,141,538 pounds, valued at \$38,267,692, in 1911, to 365,038,649 pounds, valued at \$60,231,377 in 1912. The total value of Montana's mineral production was \$63,498,194 in 1911 and \$71,620,873 in 1912, an increase of \$8,122,679. The copper output approximates 70 per cent of the total.

A small quantity of copper was produced in Montana as early as 1808. In 1881 the output was less than 1,500,000 pounds, but by 1887 Montana took first place among the states, and for 20 years (with the exception of 1891) continued to hold the supremacy, being displaced by Arizona in 1907. Montana's production of copper to the close of 1912 has amounted to 5,907,024,710 pounds, slightly more than one-third of the total production of the United States since 1845. In the production of silver, Montana ranks third, silver being second in importance among its mineral products. In 1912 the production of silver from Montana ores was 12,731,633 fine ounces, valued at \$7,289,957, an increase from 11,985,196 fine ounces, valued at \$6,352,154, in 1911. Most of the silver produced in Montana is obtained as a by-product in the mining of copper.

The gold production of Montana in 1912 was 175,371 fine ounces, valued at \$2,625,235, nearly 20 per cent being obtained from copper ores. The value of the metallic contents of the ores mined in Montana in 1912 was \$64,754,613, or 90 per cent of the total mineral production of the state. The only branch of the non-metallic industries which has been developed to any extent is coal mining, the maximum production being made in 1912, with 3,048,495 short tons, valued at \$5,558,195.

Montana leads in the production of precious stones, this supremacy being due to the mining of sapphires, one of the few instances of gem-mining carried on as an industry in the United States. The value of the gems produced in 1912 was \$200,585.

The other commercial mineral products of the state are cement, clay manufactures (principally common brick), griststones, gypsum, iron ore, lead, lime, mineral waters, sand and gravel, sand-lime brick, and stone.

KILLS MOTHER WITH AIR RIFLE.

Young Klem, Shooting at Flies, Hits Parent.

Kingston, N. Y., Nov. 11.—Twelve-year-old John Klem, proud possessor of a new air rifle, was shooting at flies on the dining room wall when his mother entered the room. Just as she shouted a warning she stepped in front of the weapon. The bullet entered her brain through the eye and she died yesterday.

\$60,000 FIRE AT FITCHBURG.

B. & M. Car Shops Are Threatened but Saved.

Fitchburg, Mass., Nov. 11.—A group of car shops operated by the Boston & Maine railroad in East Fitchburg were threatened last evening by a fire that destroyed three sections of paint shops and eight passenger coaches. The loss amounts to \$60,000.

INSOLVENTS NEED NOT PAY.

Corporations Exempt from Working of Income Tax.

Washington, Nov. 11.—Receivers of insolvent corporations are not required to pay the corporation tax imposed by the Payne-Aldrich law, according to a decision yesterday by the supreme court.

Giants Win.

San Diego, Nov. 11.—The New York Nationals defeated the Chicago Americans yesterday 4 to 2.

New York won in the last half of the ninth when Chief Meyers sent the ball over the right field fence for a home run.

FACE BROKE OUT IN RED SPOTS

Blotchy All Over. Became Scaly. Scratched Until Made Them Bleed. Used Cuticura Soap and Ointment. Face and Head Cured.

24 Gilbert St., New Britain, Conn.—"My little boy's face used to get awful red and sometimes when I used to wash it it would bleed. Then it got blotchy all over and was horrid looking. His face broke out in red spots and then became scaly. He used to scratch them until he would make them bleed. Then his head started to break out. He was restless at night and complained of his face being sore. His head was all little cuts from scratching it.

"So I thought I would send for a sample of the Cuticura Soap and Ointment. I only used them for a few days when there was such a change in his skin. His face began to get clear. When the sample was gone I got one cake of Cuticura Soap and one box of Cuticura Ointment. I washed his face with the Cuticura Soap and warm water every night and morning and applied the Cuticura Ointment for four weeks and his face was cured. I got another cake of Cuticura Soap and one box of Cuticura Ointment and was only using them for two weeks and they made his scalp nice and clean. His head was cured." (Signed) Mrs. Isabelle Guenther, May 26, 1913.

For treating poor complexion, red, rough hands and dry, thin and falling hair, Cuticura Soap and Cuticura Ointment have been the world's favorite for more than a generation. A single set is often sufficient. Sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

After shampoo with Cuticura Soap, will find it best for skin and scalp.

"BLOOD CODE" RULES IN NORTH WOODS

"Life for a Life" Makes the City Deer Hunters Beware—It Is the Only Law Left.

Milwaukee, Wis., Nov. 11.—When the deer season opened in Wisconsin and the upper peninsula of Michigan yesterday amid the prospects were that the new rule of the woods, the "blood code," would be in effect more than ever before, and that in consequence the city hunter who shoots men for deer would be endangering his own life as much as the lives of others.

Constant warnings have not served to make city hunters careful, and even laws have not availed to stop the annual slaughter of human beings shot by reckless users of rifles, who "thought it was a deer." Hence the "blood code" is gaining recognition, though it is an unwritten law.

It is a terrible code, this new law of the woods, but it is said to be the only way by which city hunters can be forced to recognize the danger of the misuse of a rifle. This is the slogan of the unwritten "blood code": "If anyone shoots at you by mistake for a deer, get him, for he'll get you if you don't."

This word is being passed to the experienced as well as to the inexperienced hunters, and is said to be doing more than any other agency to make the woods safe.

NURSE WOUNDED.

Revolver Held By Hospital Physician Was Accidentally Discharged.

Malden, Mass., Nov. 11.—It became known yesterday that a nurse in a local hospital recently was wounded by a bullet from a revolver held by a physician. The wound was not serious.

Sometime ago, after a disturbance in which a nurse was stabbed, the hospital authorities granted permission to the doctors at the institution to arm themselves as a matter of protection. One of the physicians was exhibiting to a group of nurses a revolver which he had been carrying in his pocket when it was accidentally discharged.

The bullet entered the shoulder of one of the nurses, inflicting a flesh wound.

A Skin of Beauty Is a Joy Forever.

D. R. T. Felix Goureaud's Oriental Cream or Facial Beautifier.

Removes Tan, Pimples, Freckles, Moth Patches, Redness, Sore Throat, and every blemish on beauty, and gives a soft, smooth, and healthy skin. It has stood the test of years, and is so simple and so effective that it is properly made. Accept no counterfeit. The name, Dr. R. T. Felix Goureaud's Oriental Cream, is on the label. Use it daily of the best. "As you ladies who use them will find it so."—Dr. R. T. Felix Goureaud.

"Goureaud's Cream" is the best beauty of all the skin preparations. It is sold by all the leading druggists in the United States, Canada and Europe. FERO, T. HOPKINS & SON, Prop., 37 E. 4th St., N.Y.C.

This Home-Made Cough Syrup Will Surprise You

Costs Little, but there is Nothing Better at Any Price. Fully Guaranteed.

Here is a home-made remedy that takes hold of a cough almost instantly, and will usually cure an ordinary cough in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready-made cough syrup for \$2.50.

Mix one pint of granulated sugar with ½ pint of warm water, and stir 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps end a cough.

You probably know the medical value of pine in treating bronchial asthma, bronchitis, spasmodic croup and whooping cough. Pinex is a most valuable concentrated compound of New York white pine extract, rich in guaiacal and other natural healing pine elements. Other preparations will not work in this combination.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

USE PLAIN LANGUAGE

Federation of Labor Officials Employ It in Report to Annual Convention

HARSH WORDS ARE EMPLOYED

"Invisible Government of Organized Dollars" Scored in Sharp Terms

Seattle, Nov. 10.—"Invisible government by organized dollars" was scored in the report of the executive council of the American federation of labor to the thirty-third annual convention which began here to-day. The recent congressional lobby investigation and the charges of M. M. Mulhall against the National association of manufacturers formed the basis of the attack.

The report was signed by all officers of the federation who compose the executive council. It dealt exhaustively with all phases of labor conditions in the United States and the insular possessions but made only an incidental reference to the new federal industrial relations commission and board of mediation and conciliation. The report was not read but a copy was furnished to each delegate.

The reference to the national association of manufacturers was the longest in the report. A review of testimony before the Senate and House labor investigations was given, going into detail regarding the activity of what is termed the "invisible government," as embodied in the national association of manufacturers.

Concerning the national association of manufacturers the report said: "It has been shown to be the worst group of selfish, mercenary interests now fattening upon civilization. The officials of that organization have not denied their official signatures to any communication offered in evidence. They have not denied that they paid their lobbyists large salaries had honored immense expense accounts. They have not denied that they attempted to break strikes and that their agents went to and fro in the halls of congress and frequented the rooms of its members to prevent legislation in behalf of labor. The national association through its coaching greed for power and self, now stands absolutely discredited before congress and the nation. Its influence for evil has been materially reduced."

The report charged that only a limited number of copies of the lobby hearings have been printed and expressed the hope that the convention would call upon congress to supply more that they might be distributed and the knowledge of the alleged "conspiracy of the manufacturers" be widely disseminated.

Reference to the lobby investigation concludes: "Now that the existence of the invisible government, the stronghold of organized dollars, has been established beyond doubt or question, now that its methods, purposes and agents have been revealed to the public, those who have at heart the interests of humanity and the maintenance of a Democratic form of government, are able to attack the problem with the wisdom of experience and knowledge."

The early opening of the Panama canal was made the occasion to declare for greater immigration restriction through national legislation. Easier access to the Pacific coast, the report says, forces a city upon the workers in western states to seriously consider the new problem of foreign immigrant labor. The failure of remedial legislation in recent congresses was deplored.

In connection with the work of the department of labor the report declares in favor of the establishment of a bureau of labor safety to look after the safety of workmen and the encouragement of safety devices, museums of safety, it was declared, "would be of great assistance in promoting these various purposes."

Only brief comment was made in the report on the contempt of court sentences pronounced against President General Vice-President Mitchell and Secretary Morrison. A review of the case was given but, aside from declaring that the "opinion of the District court of appeals did not give a decision to the fundamental issues upon which organized labor had been asking a judicial ruling," the report refrains from comment on the court's findings.

Urgent need for the solution of the problem of the unemployed was brought to the attention of the convention. Sympathy with their conditions was expressed and the belief was voiced that the unemployed might be used in road construction which automobile travel is making daily of greater importance. Legislation to that end was urged.

Because of the international and world-wide trend in the organization of labor, the report stated the federation was heartily in sympathy with movements to bring about lasting international peace.

"Labor organizations the world over," says the report, "have committed themselves to the policy of international peace—peace with honor and justice in international politics as well as industry. All national economic and political issues are infected with world interest."

In conclusion the report urged the delegates to give earnest consideration to the recommendation made for remedial legislation among others: an eight hour work day, injunction limitation, seamen's legislation, Workmen's compensation, federal bureau of health, safety appliances, arbitration and automatic stop systems on railways.

SENATOR CUMMINS SNOWBOUND.

His Train in Drift and Passengers Were Without Food for Over 18 Hours.

Washington, Pa., Nov. 11.—Three hundred passengers, including United States Senator Cummins of Iowa, are snow-bound in an unprecedented blizzard three miles west of this city. A relief train sent to assist them has been blocked on the road. The passengers aboard have had nothing to eat for the past 18 hours and prospects of getting supplies to them look bad for at least 24 hours more. Frightful traffic conditions prevail here owing to the storm.

Quaker RANGES

It's Economy to Cook with both Coal and Gas

The New Quaker Gas Oven, attached to the coal range, makes the ideal combination for service—quick results—comfort and economy

We want to show you many advantages of the Quaker gas oven—such as all cast iron construction—Patent oven lighter which prevents explosion—Standard U. G. I. Burners, roomy oven—convenient broiler, and top gas end shelf with three burners. With this combination you are actually buying two ranges combined in the space of one, and you can bake equally well with the coal or gas oven

Barre, Vt.

HAYWOOD WINS AT TRENTON

New Jersey Supreme Court Sets Aside Conviction of Industrial Workers at Paterson, N. J.

Trenton, N. J., Nov. 11.—The state supreme court here yesterday set aside the conviction of William Haywood, who, with two others connected with the Industrial Workers of the World, was convicted on a charge of being disloyal persons in connection with the recent strike of the Paterson silk workers.

The others involved are Carlo Tresca and Adolph Lessig. The men were sentenced to six months in jail.

The opinion of the supreme court, in a decision read by Justice Bergen, holds that the mere fact that a person walk-

ing along the public streets in a peaceable quiet manner is followed by a crowd of people is not sufficient to justify his conviction of being a disorderly person upon the ground that he obstructed and interfered with other persons lawfully upon the streets.

CREW MUTINIED.

And Armed Guard Is Placed on Bark Manga Reva.

Lewes, Del., Nov. 11.—An armed guard from the United States revenue cutter Onondaga was placed aboard the American four-masted bark Manga Reva, whose crew sailed from Philadelphia a month ago for San Francisco with a cargo of coal.

A wireless message from the commander of the Onondaga recommended that the bark with the crew aboard be towed back to Philadelphia with the armed

FOR ANY SKIN SORENESS COMFORT POWDER IS USED IN HARTFORD HOSPITALS

Supt. B. S. Gilbert of Hartford City Hospital says: "We have used Comfort Powder in our hospital for many years and consider it by far the best powder made, wherever a perfect skin-healing powder is needed. We have found it to be most carefully prepared and of certain and effective therapeutic value." Comfort Powder is used and endorsed by more hospitals, physicians and trained nurses than any other powder, because it is a skin-healing wonder. Be sure you get the genuine with signature of B. S. Sykes on box.—Adv.

guard of the United States sailors in charge and this probably will be done. It has not yet been learned why the men mutinied.

CAUTION!

The great popularity of the clean, pure, healthful

**WRIGLEY'S
SPEARMINT**

is causing unscrupulous persons to wrap rank imitations that are not even real chewing gum so they resemble genuine WRIGLEY'S SPEARMINT. The better class of stores will not try to fool you with these imitations. They will be offered to you principally by street fakirs, peddlers and the candy departments of some 5 and 10 cent stores. These rank imitations cost dealers one cent a package or even less and are sold to careless people for almost any price.

If you want **Wrigley's** look before you buy. **Get what you pay for.**

Be sure it's
WRIGLEY'S

We are inserting this advertisement solely to protect our customers, who are continually writing us that they have been deceived by imitations which they purchased thinking they were WRIGLEY'S.
